“Be farsighted when choosing clothes and footwear since there is still some snow and ice, it is colder along the river and there may be wet soil conditions with the snow melting, says Plaisance Heritage and Falls General Manager Pierre Bernier. The overflowing river scenery and the deafening falls of the spring freshet are an incredible experience and are worth the trip.”

The General manager adds that the services to visitors will be improved this year with the adding of two chemical toilets as soon as the spring conditions will allow it and with the delivery of many new picnic tables to replace those which reached the end of their life cycle.

The site will be open on Saturday, Sunday and Monday of Easter Holidays as well as all the weekends in April. From May to the middle of June, it will be open 4 days/week and later on, 7 days/week during all summer.

Hours and fees can be found at chutesplaisance.ca
